

Aquastix

Nulon Aquastix are a great toy for all the family and have so many uses beyond water play, including:

- Put under the mattress to keep baby from rolling;
- Insert into your boots to keep them upright;
- Safe swordplay;
- Safety around the workplace or home;
- Cut down for use in arts and crafts.

Not only can they be used for fun, but they are also very practical in covering the ends of racking and other potential hazards in the workplace.
