

## Sheet Foam & Bonded Sheets

PE Foam is very resilient and used extensively in packaging. In sheet form it is available in varying densities, widths, thicknesses and colours. Bonding sheets together up to 100mm allows greater protection for fragile items.

Applications include:

- Foam wrap anti-abrasive packaging;
- Fruit, vegetable and flower wraps;
- Sheet and perforated foam for furniture and fragile goods;
- Wraps for meat and fish;
- Horticulture applications;
- Insulation material.

### Bonded Sheets

Applications include:

- Impact protection sections;
- Waterproof membrane protection;
- Thermal protection;
- Spa pool covers;
- Child safety and body protection;
- Crash wall mats;
- Sleeping and outdoor/indoor mats;
- Housing for tools, gaskets and mouldings;
- Packaging for computer and other electronics devices.

### SHEET FOAM & BONDED SHEETS

Thickness	Width (mm)	Length (m)
1mm	300	100
	600	100
	1200	100
	1200	500
	1300	100
2mm	600	100
	1200	100
	1500	100
3mm	1200	100
4mm	1200	100
5mm	1200	100
BONDED SHEETS		
10mm	1200	2400
25mm	1200	2400
50mm	1200	2400
100mm	1200	2400
