

## Foam Pieces & Planks

---

Nulon's PE foam products can be made into many shapes and sizes to suit your packaging requirements. Sheets can be cut down to fit specific sizes, and are excellent sitting between tiles and other heavy products. Planks (or fillets) are a thicker alternative that are a great fit for industrial packaging.

Applications include:

- Case fillers;
- Component separators;
- Hull inserts in boatbuilding;
- Life jackets;
- Computer and electronic packaging.

### PLANK PIECES (IN STOCK)

| Thickness (mm) | Width (mm) | Length (mm) |
|----------------|------------|-------------|
| 20             | 75         | 1200        |
| 20             | 75         | 200         |
| 20             | 75         | 400         |
| 20             | 75         | 420         |
| 25             | 75         | 275         |
| 30             | 150        | 1300        |
| 50             | 100        | 2000        |
